

# Need Patient Safety CME to Fulfill MOCA® Requirements?

ASA offers core and elective patient safety content to help fulfill the 20 CME credits required for MOCA® by the American Board of Anesthesiology with the new Fundamentals of Patient Safety Online CME course and Patient Safety Modules.

## Core Patient Safety Content

Earn up to 10 CME Credits

### **NEW!** Fundamentals of Patient Safety

ASA's new Fundamentals of Patient Safety Online CME course provides core patient safety content to fulfill a component of the American Board of Anesthesiology's MOCA® requirements. The interactive online CME course covers patient safety principles, reinforced with anesthesia-specific scenarios, examples and resources.

**Regular Price:** \$160

**ASA Member Price:** \$120

## Electives – Earn Additional CME Credits Patient Safety Modules

ASA's Patient Safety Modules provide elective content to satisfy the Patient Safety CME component of the ABA's MOCA® requirements. The modules use multimedia and case-based instruction to cover patient safety topics from the anesthesiologist's perspective.

*Topics Include:*

- Infection Control
- Wake-up Call: Managing Undiagnosed Obstructive Sleep Apnea Syndrome
- Cardiac Arrest and Spinal Anesthesia
- Extravasation of Intravenously Administered Drugs
- Cardiac Tamponade
- Plus much more ...

**Regular Price:** Up to \$20 per module

**ASA Member Price:** Up to \$10 per module
